

by the Agencies employing the individuals mentioned in this Administrative Claim, because they have engaged in a conspiracy to deprive me of the Equal Protection of the Laws, Due Process of Law, and my Right to a Fair Trial. I also have claims against the U.S. Department of Justice and/or the Federal Bureau of Investigations (F.B.I), since some of its employees have kept me under *unlawful electronic surveillance* for the past (14) fourteen years (including at the present time), **for intimidation, and defamation of my character** while stating to previous employers, prospective employers, and to the general public that I am a **subversive element**, and a **purported homosexual or bisexual** individual .

These allegations which started under the tenure of **F.B.I director Mr. William Webster**, have not been retracted by those F.B.I directors who followed, namely, **Mr. William Sessions**, and **Mr. Louis J. Freeh**; individuals who in fact, have continued to keep alive the campaign of terror and defamation against me.

Lastly, I'd also appreciate it if you instruct the I.R.S that I do have claims on all the taxes they have collected from me since the year of 1982, for the simple fact that those taxes were unlawfully collected.

In simple words, the actions of these Presidents which, by the way, are unlawful, and unconstitutional; have also nullified thereafter, the I.R.S's legal right to collect taxes from me.

*As you'll understand the rule of law is a "two-way street"*; If I am not allowed to enforce my legal rights within the United States by orders of the *President*, the Attorney General, and/or a Federal Judge, then, **the United States government (and/or the I.R.S) does not have the legal authority to collect taxes from me either.**

Although, it is quite possible that you might be tempted to deny any knowledge of this issue, let me tell you that this information which I am presenting to you **is a matter of public knowledge**. Thus, I have no doubt whatsoever that you'll be able to confirm such without too much difficulty by contacting higher officials of the U.S. Department of Justice and /or by researching U.S. Governments Databases, particularly, since you must have access to sensitive government documents, including: F.B.I, Congressional files, and *National Security Arcades*.

Furthermore, no one in his/her right mind will believe that it is just simple coincidence that all of these law suits were dismissed one after the other for the reasons given. **Particularly, when the evidence that I have in support of my allegations in each one of these referred to law suits is overwhelming and direct** . (Not just circumstantial).

Frankly speaking, I hope that you **on behalf of : a)** the individuals mentioned in this claim, **b)** of the Justice Department, of the F.B.I, and/or **c)** of the United States, try and settle this matter at your
